Nevada, Missouri

5
Sunday

NONE of the bright, up-to-date little cities of Missouri—population 10,000, with all the modern conveniences, gas, electric lights, electric street cars, waterworks, etc. Statistics show that Nevada is the most healthful spot in the United States, and perhaps in the world, owing to its high, dry, healthful location and its wonderful pure white sulphur and chalybeate waters. It is noted for its safe, conservative banks, excellent public schools, fine churches, Cottey College for young ladies, its bright newspapers, State buildings, the Weltmer School of Healing, Spelter works, the Nevada Business College, excellent hotels, fine stores, homes, hospitable people, etc. It is a delightful city in which to live. Nevada is a railroad center, the Missouri Pacific, the Missouri, Kansas & Texas, Nevada & Minden and Nevada & El Dorado roads all centering here. Fine opening for hotels and good boarding houses near the springs.
